PROJECT INTERIORS

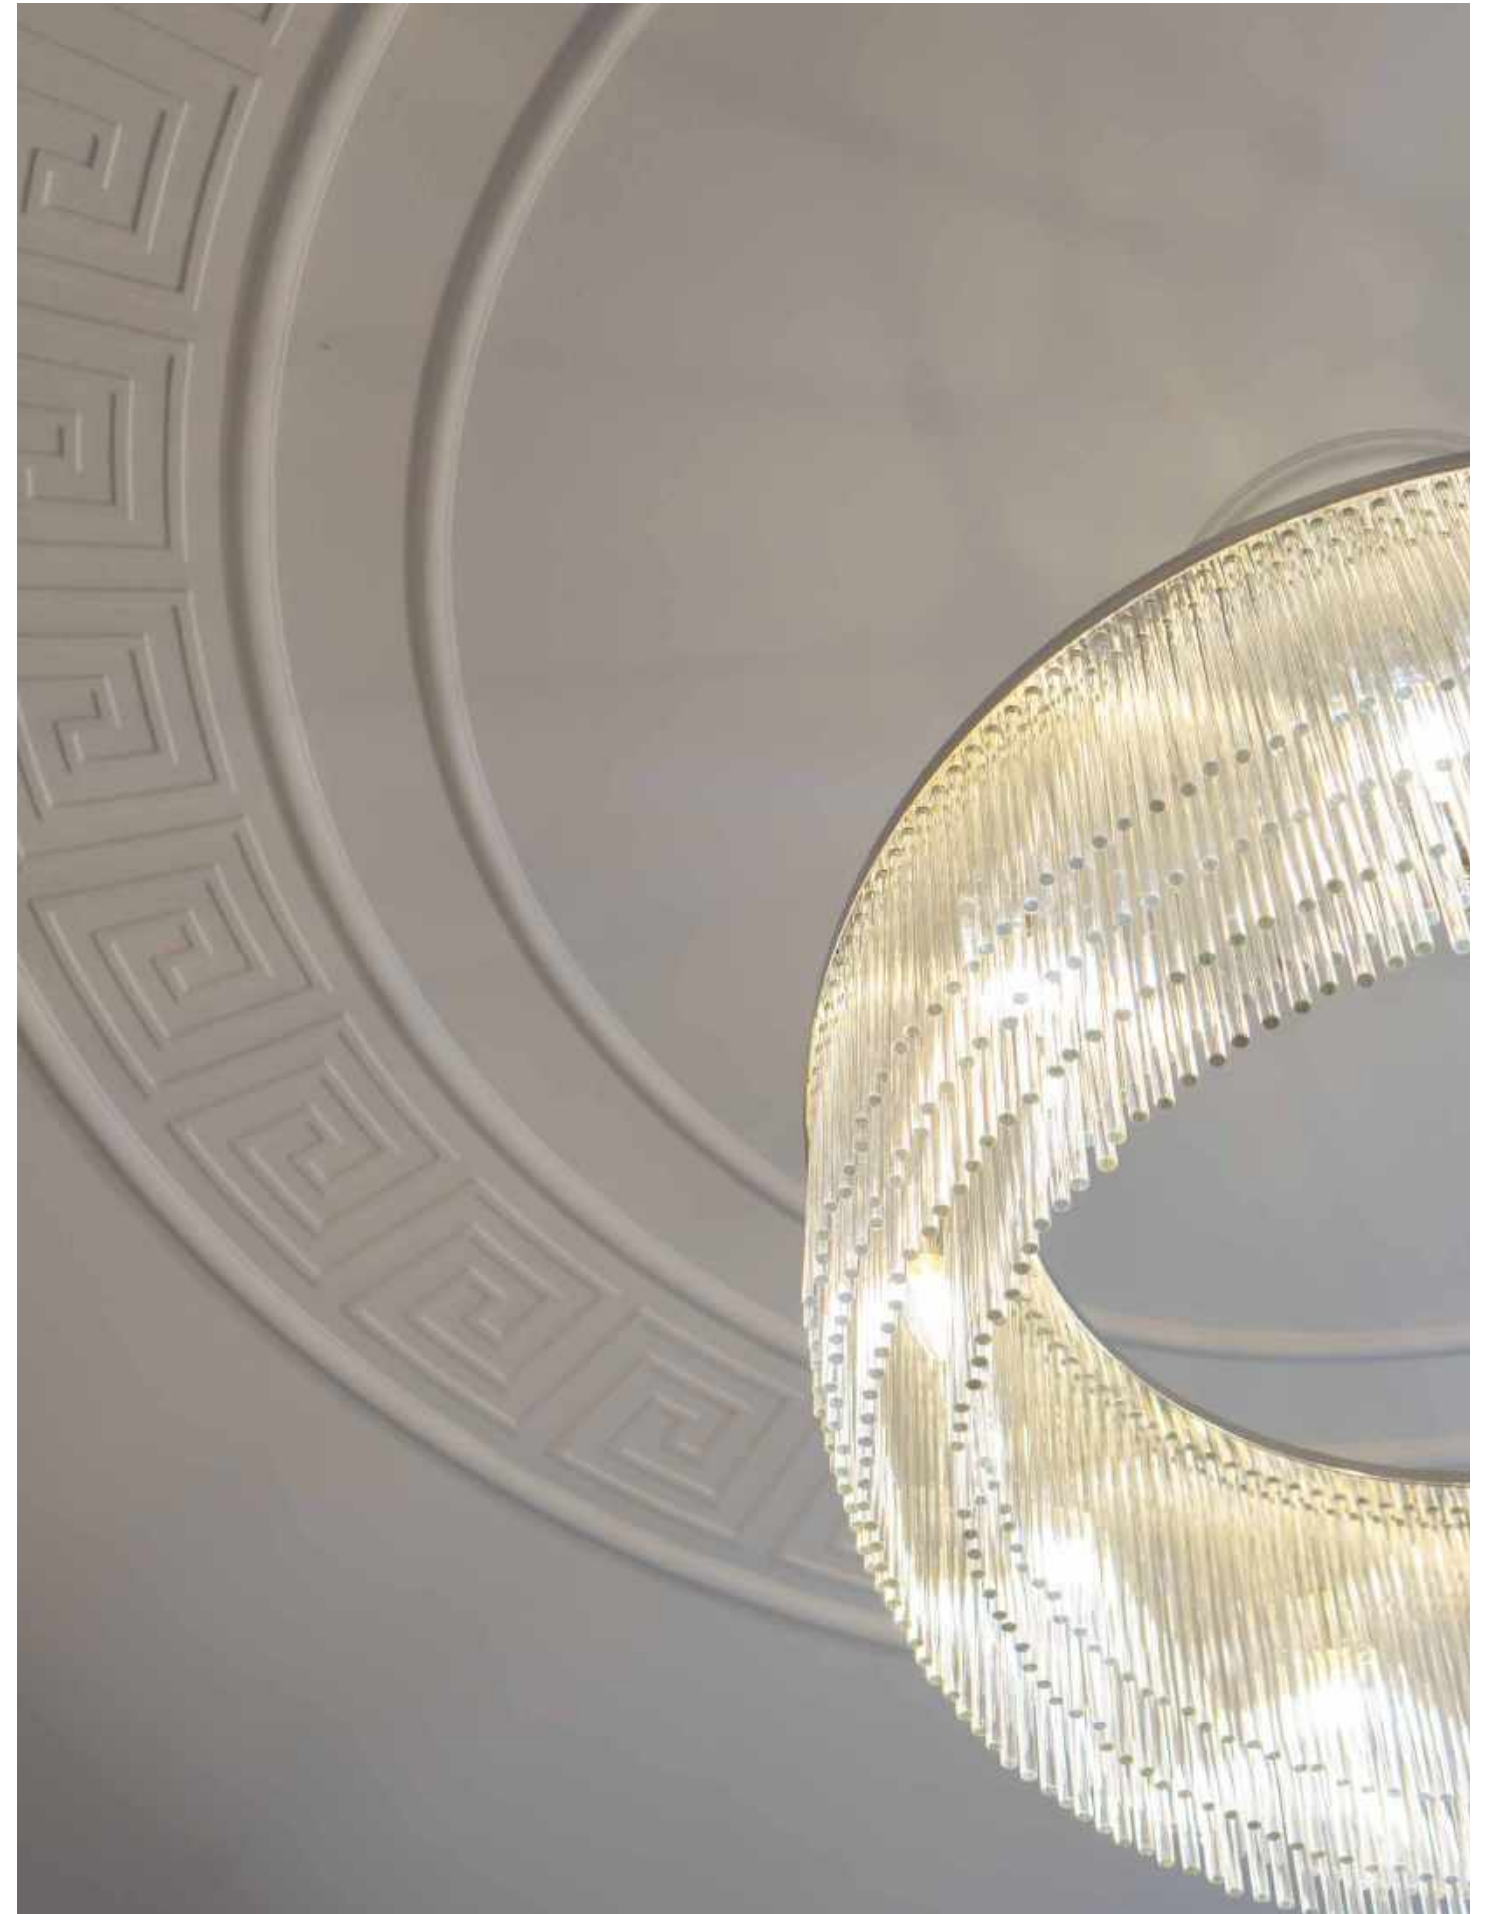

ABOUT US

Founded in 2005 by Cécile Demole, Dôme Project Interiors is a high-end interior architecture and award winning design studio based in Geneva, Switzerland.

We are specialized in residential interiors and can accommodate any interior design demand, whether it being for business premises, private residences, chalets or yachts, in order to create interiors that mirror your personality.

We work internationally and have developed projects in the United Kingdom, France, Spain, the United States and the Bahamas.

We take care of every step of your project with real attention to detail, from conception to completion. We are committed to maintain excellence thanks to our creative team, made up of interior architects, decorators, upholsterers and quilters.

SAINT-TROPEZ FAMILY HOUSE

Living Room

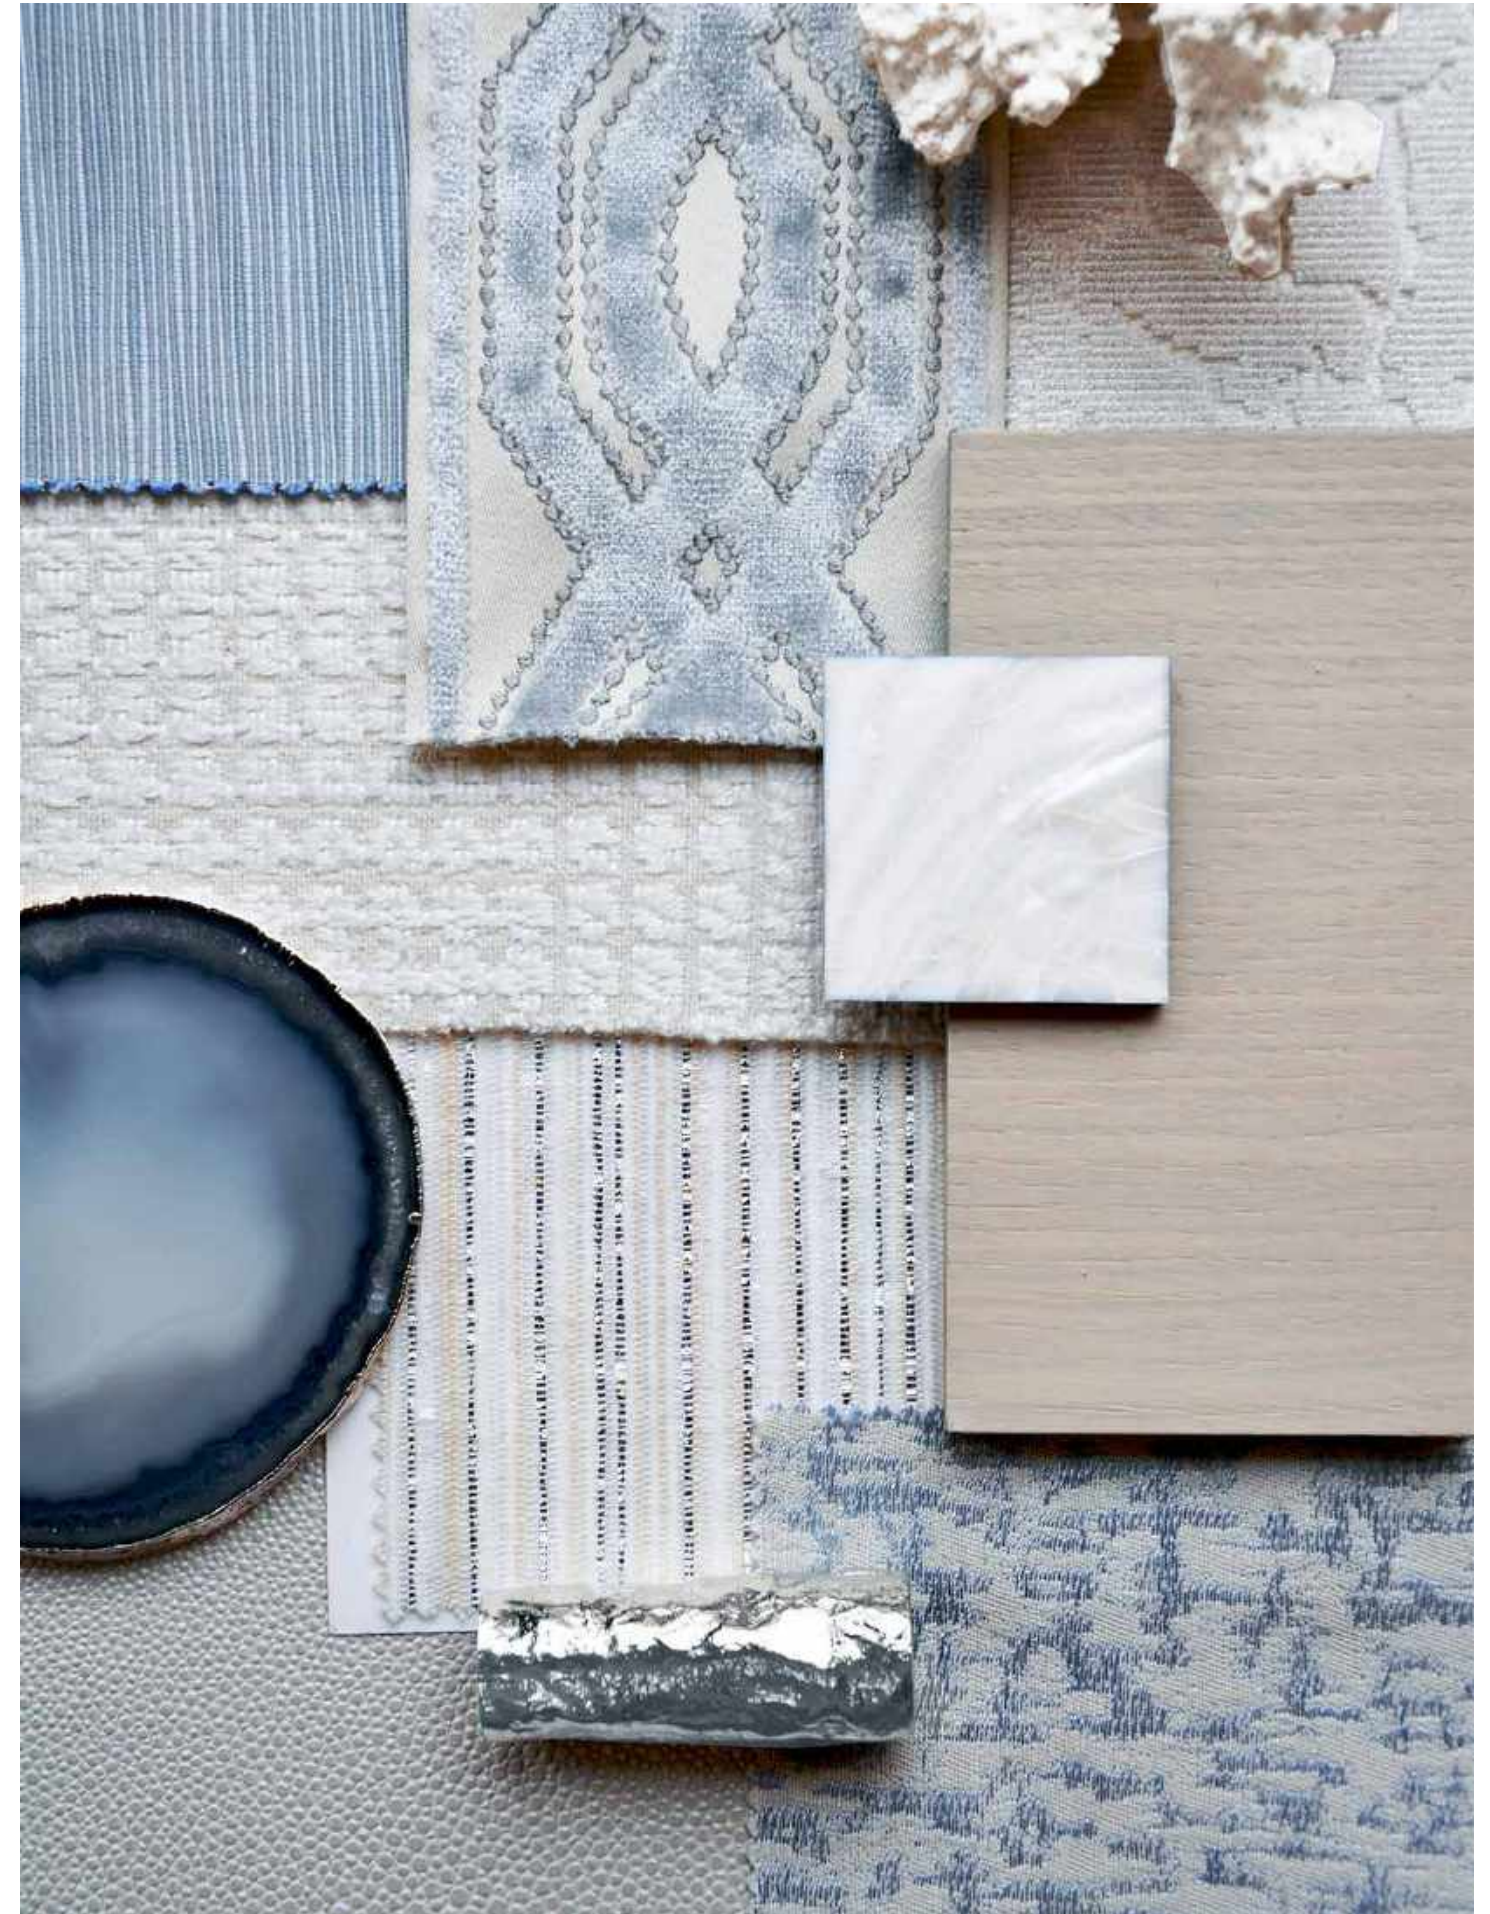

SAINT-TROPEZ FAMILY HOUSE

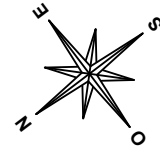

This prestigious and historically listed residence, located the heart of the French Riviera, has been completely renovated and redesigned in order to provide the comfort and calm of an elegant holiday home by the coast.

Our team designed all the interior architectural elements as well as selected and personalised the furniture and all the decorative objects.

The main objective was to feel instantly in perfect harmony with the sea. In order to achieve this, the designers used soft and soothing tones as well as natural and noble material such as mother-of-pearl, light oak and marble.

LONDON PENTHOUSE

Living Room

LONDON PENTHOUSE

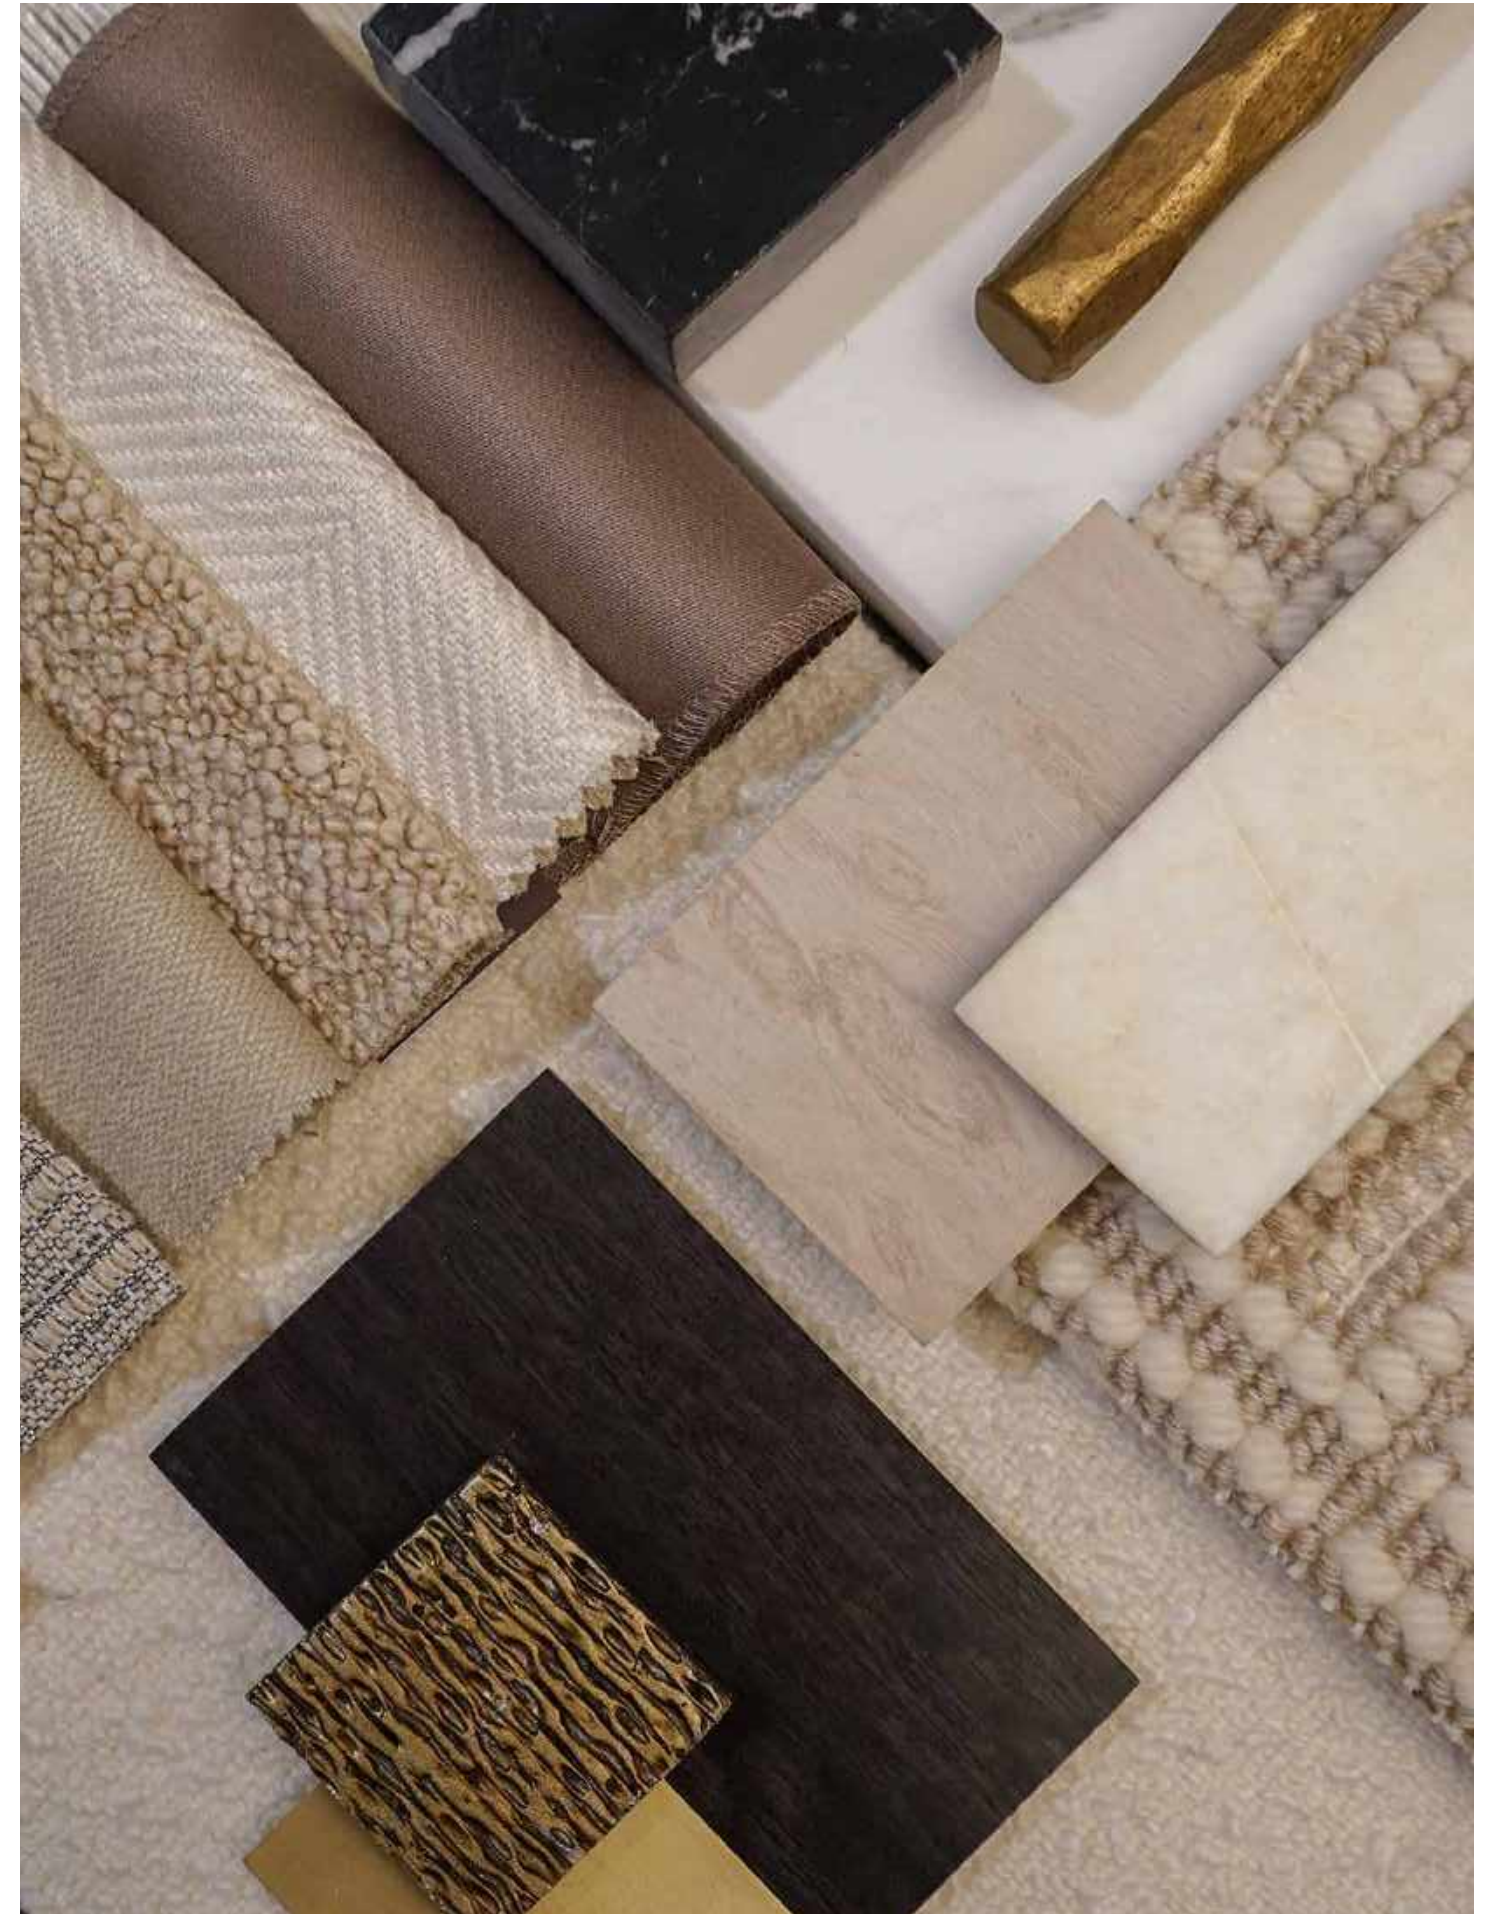

For this project taking place in London, we are renovating a penthouse in the heart of the Belgravia district.

The objective is to create a space that combines classical elements with modern organic shaped furniture.

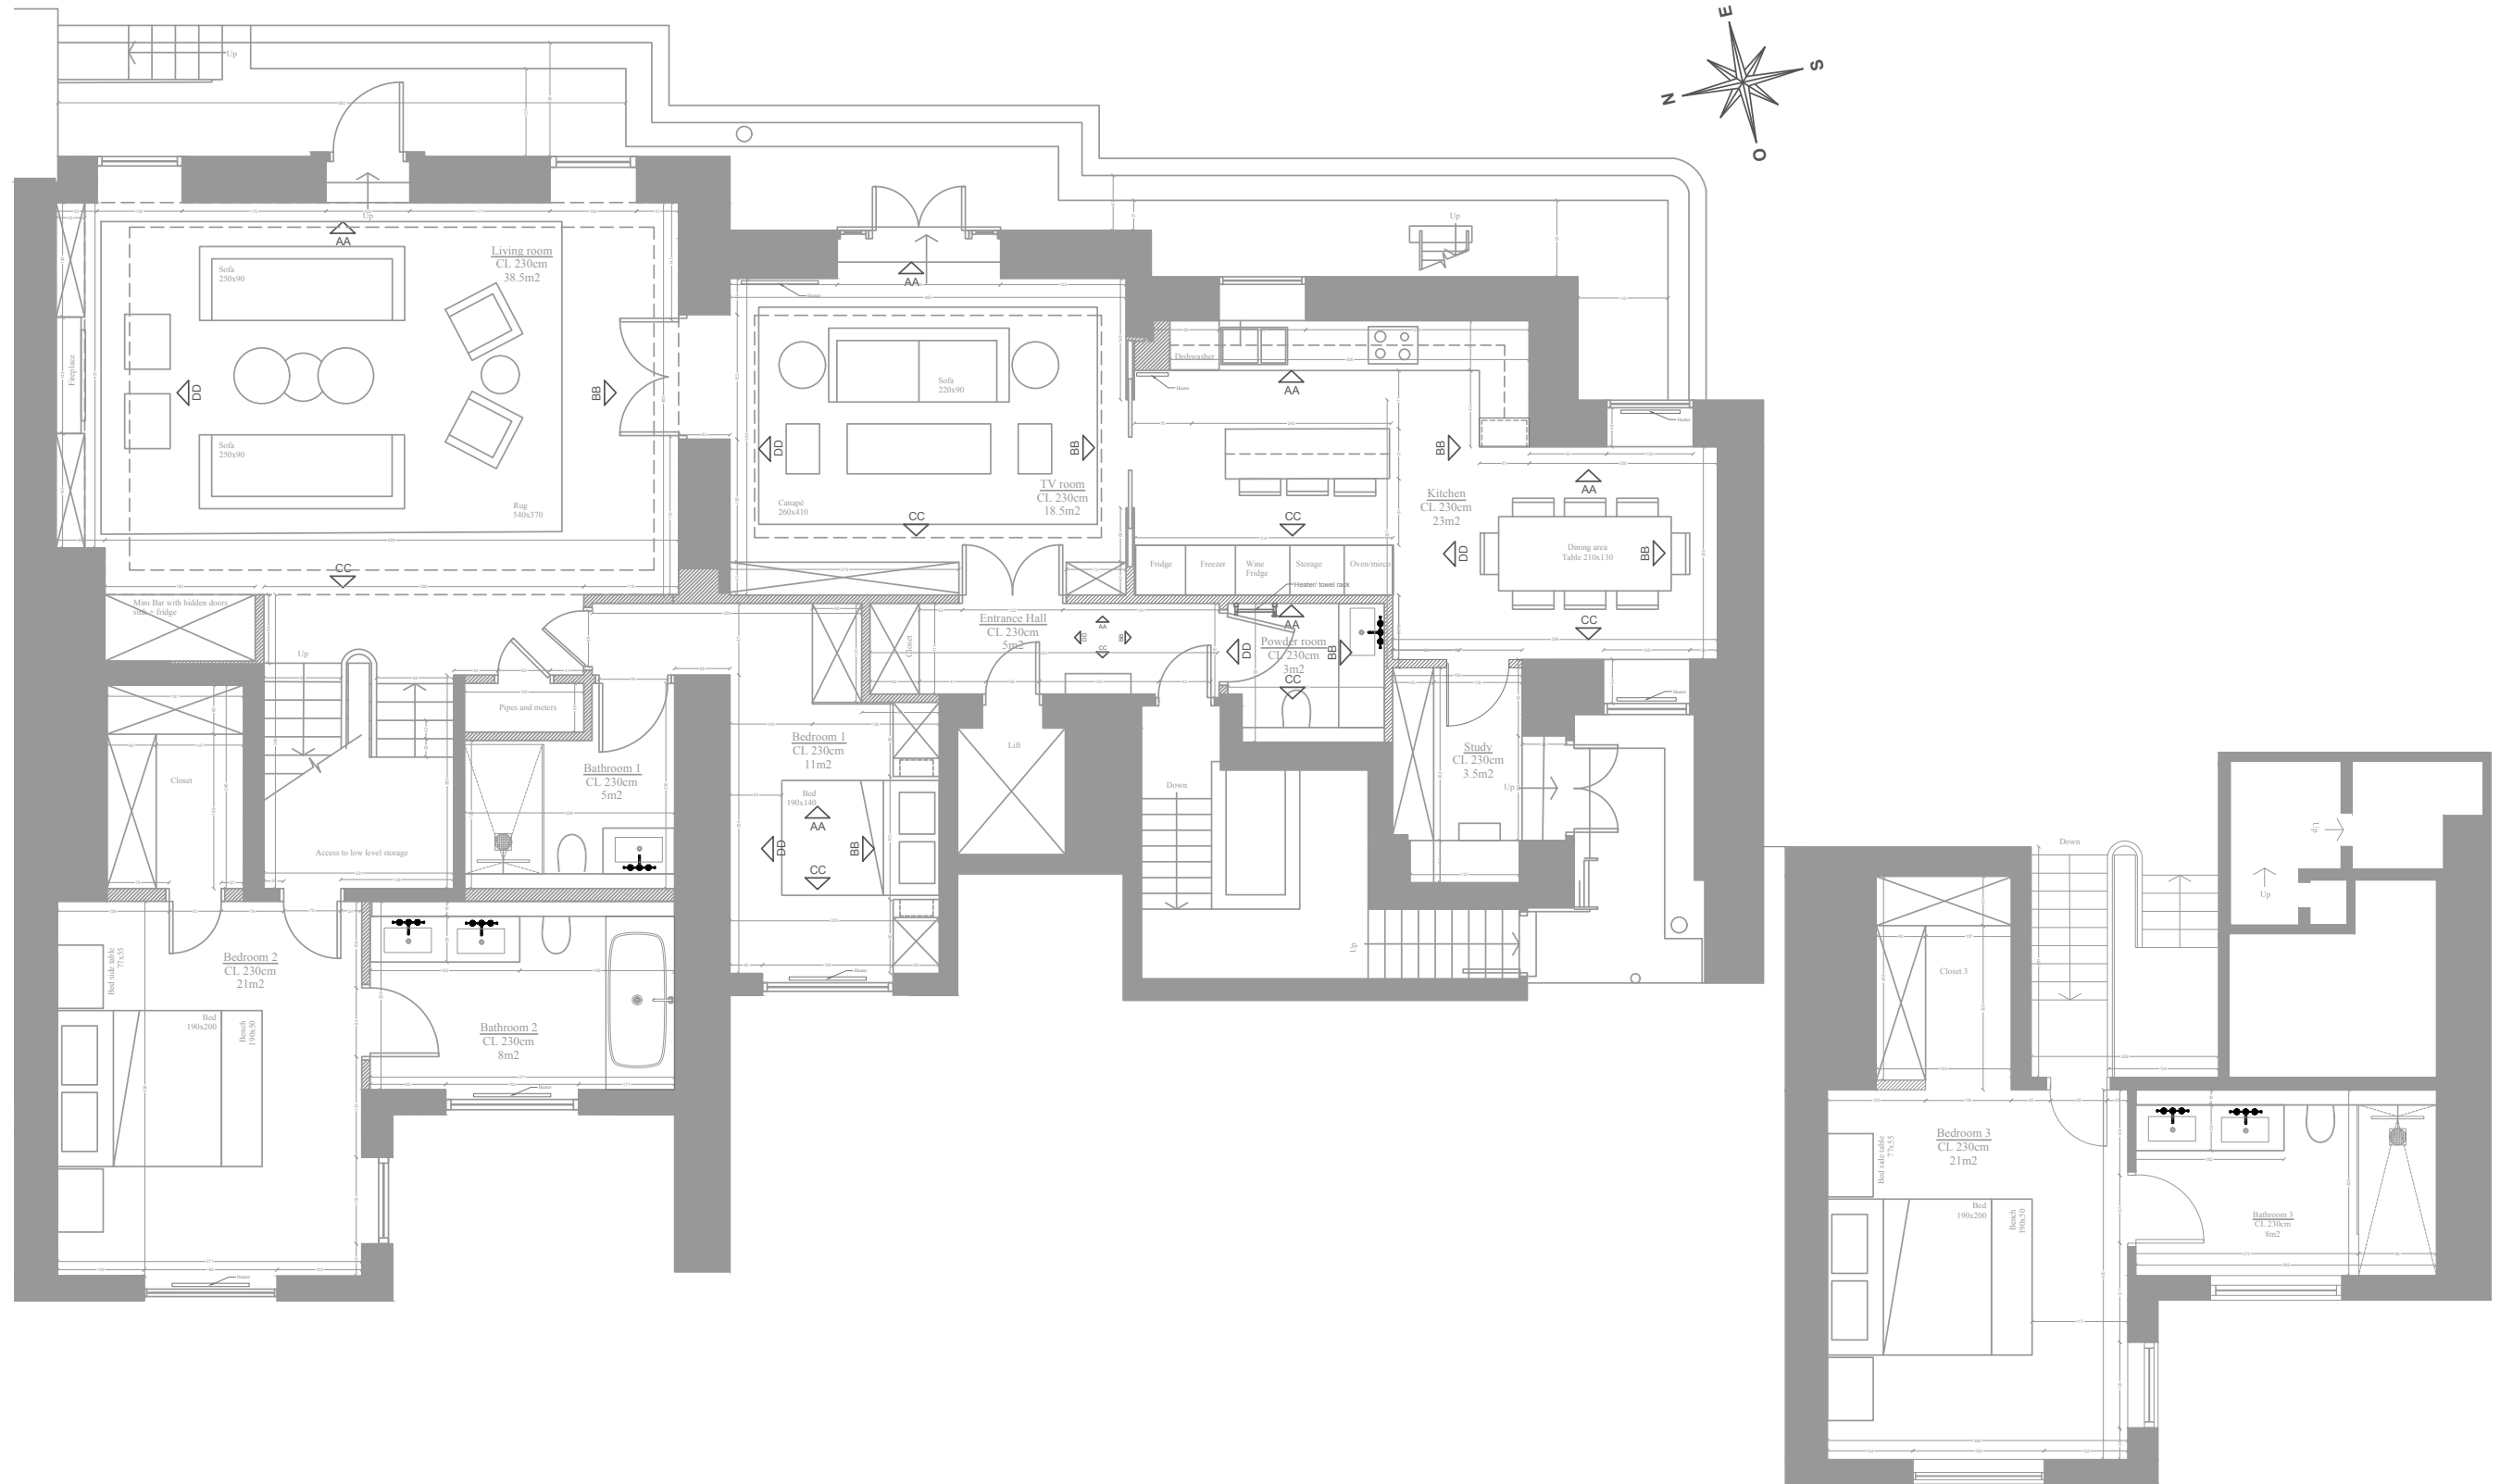

In regards to the interior architecture, moldings will be added in order to give a classical and Haussmann ambience.

The walls will be dressed with textured panoramic wallpapers. In order to contrast with the traditional surroundings, the selection of furniture will include organic and contemporary shapes.

The focus on premium materials such as travertine, brass and marble will reinforce the earthy yet artistic atmosphere.

AMELS YACHT INTERIOR REFIT

This luxuriant 54.3m world cruising exploration yacht has been meticulously renovated by our team. The incredible metamorphosis of Spirit, designed by the prestigious yacht builder Amels, bears witness to the magnetism and majesty of the ocean.

This project will go on to winning the 2020 International Yacht and Aviation Award.

Throughout the whole process, the ocean has been the main inspiration and no effort has been spared to ensure that all passengers feel connected with the marine world.

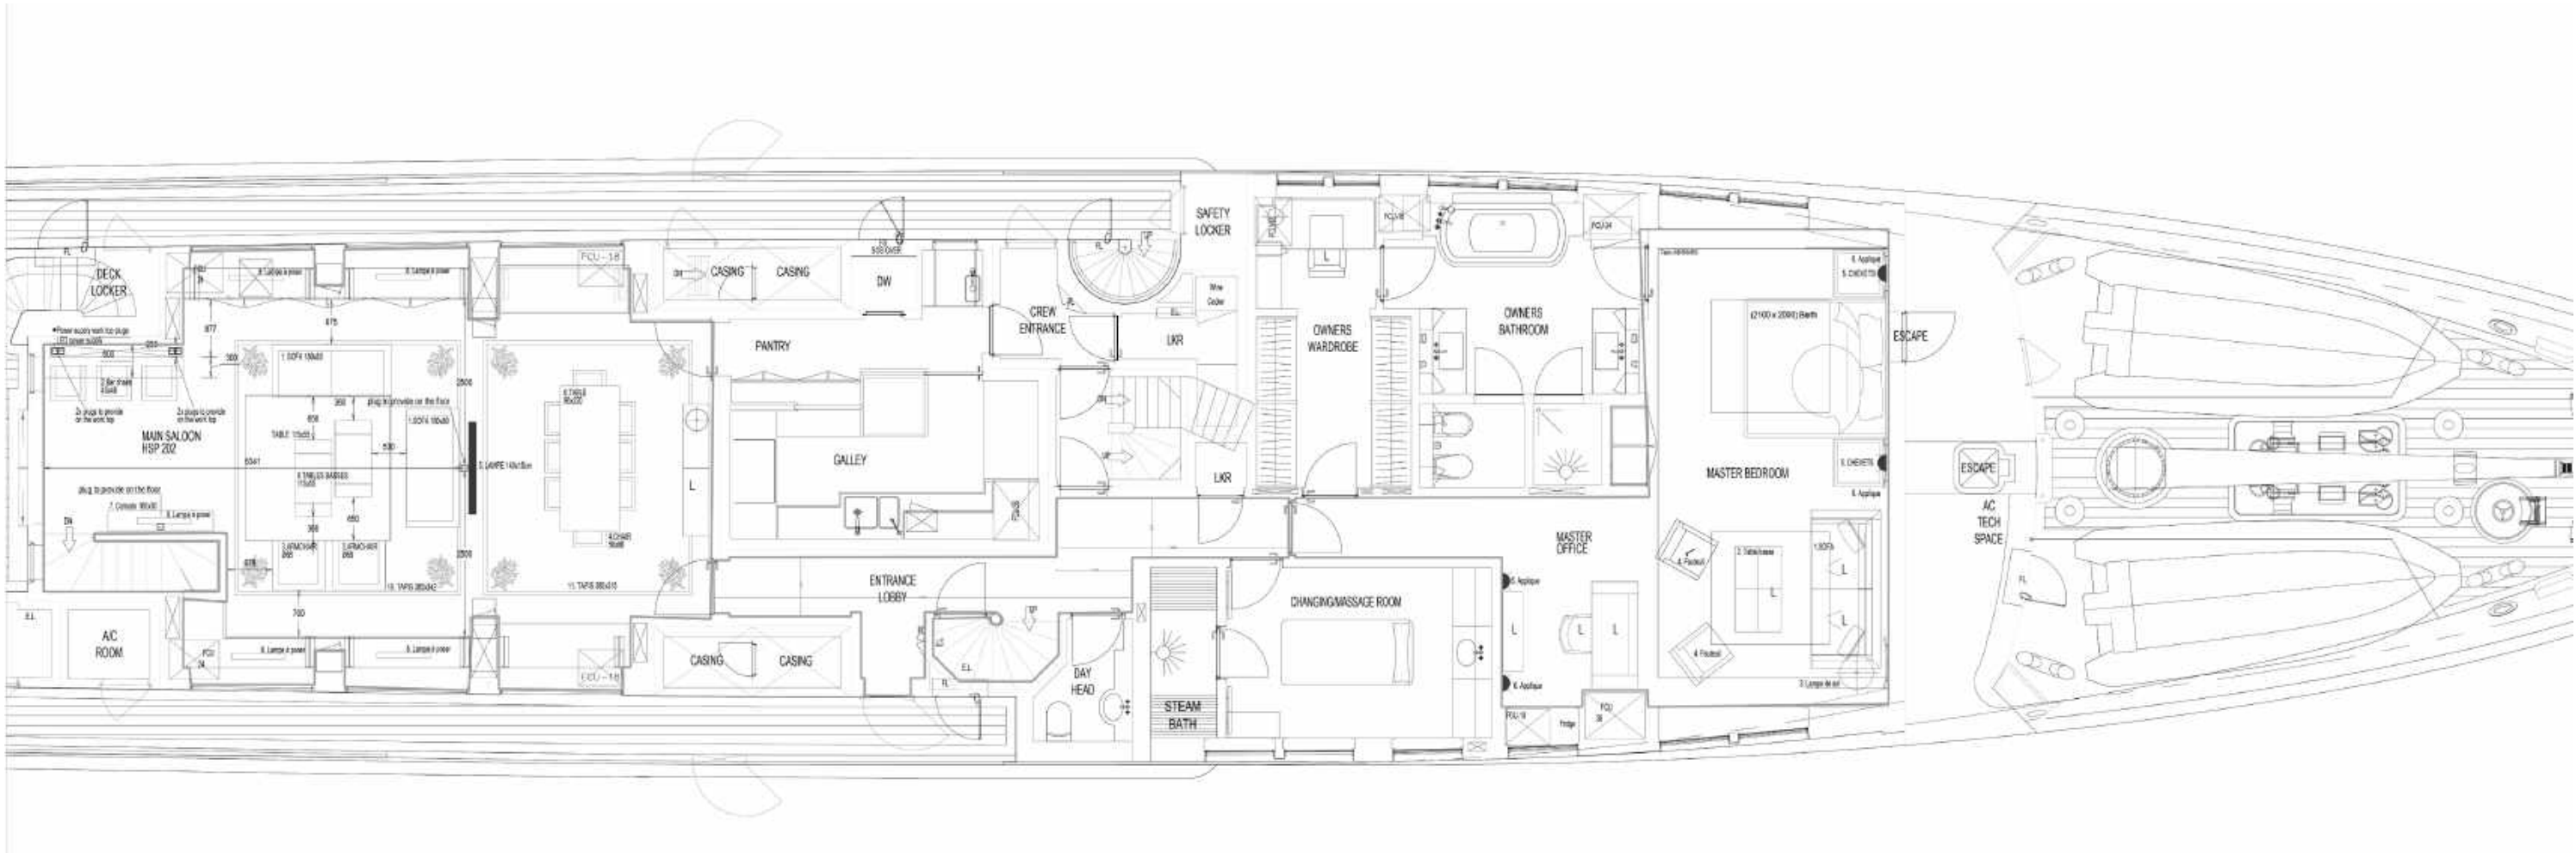

Soft, pastel colours and fine materials have been carefully selected and beautifully combined.

Appearing in a variety of accessories such as handles and cushions, shells and corals celebrate the beauty of the sea.

MIAMI PENTHOUSE

Living Room

MIAMI PENTHOUSE

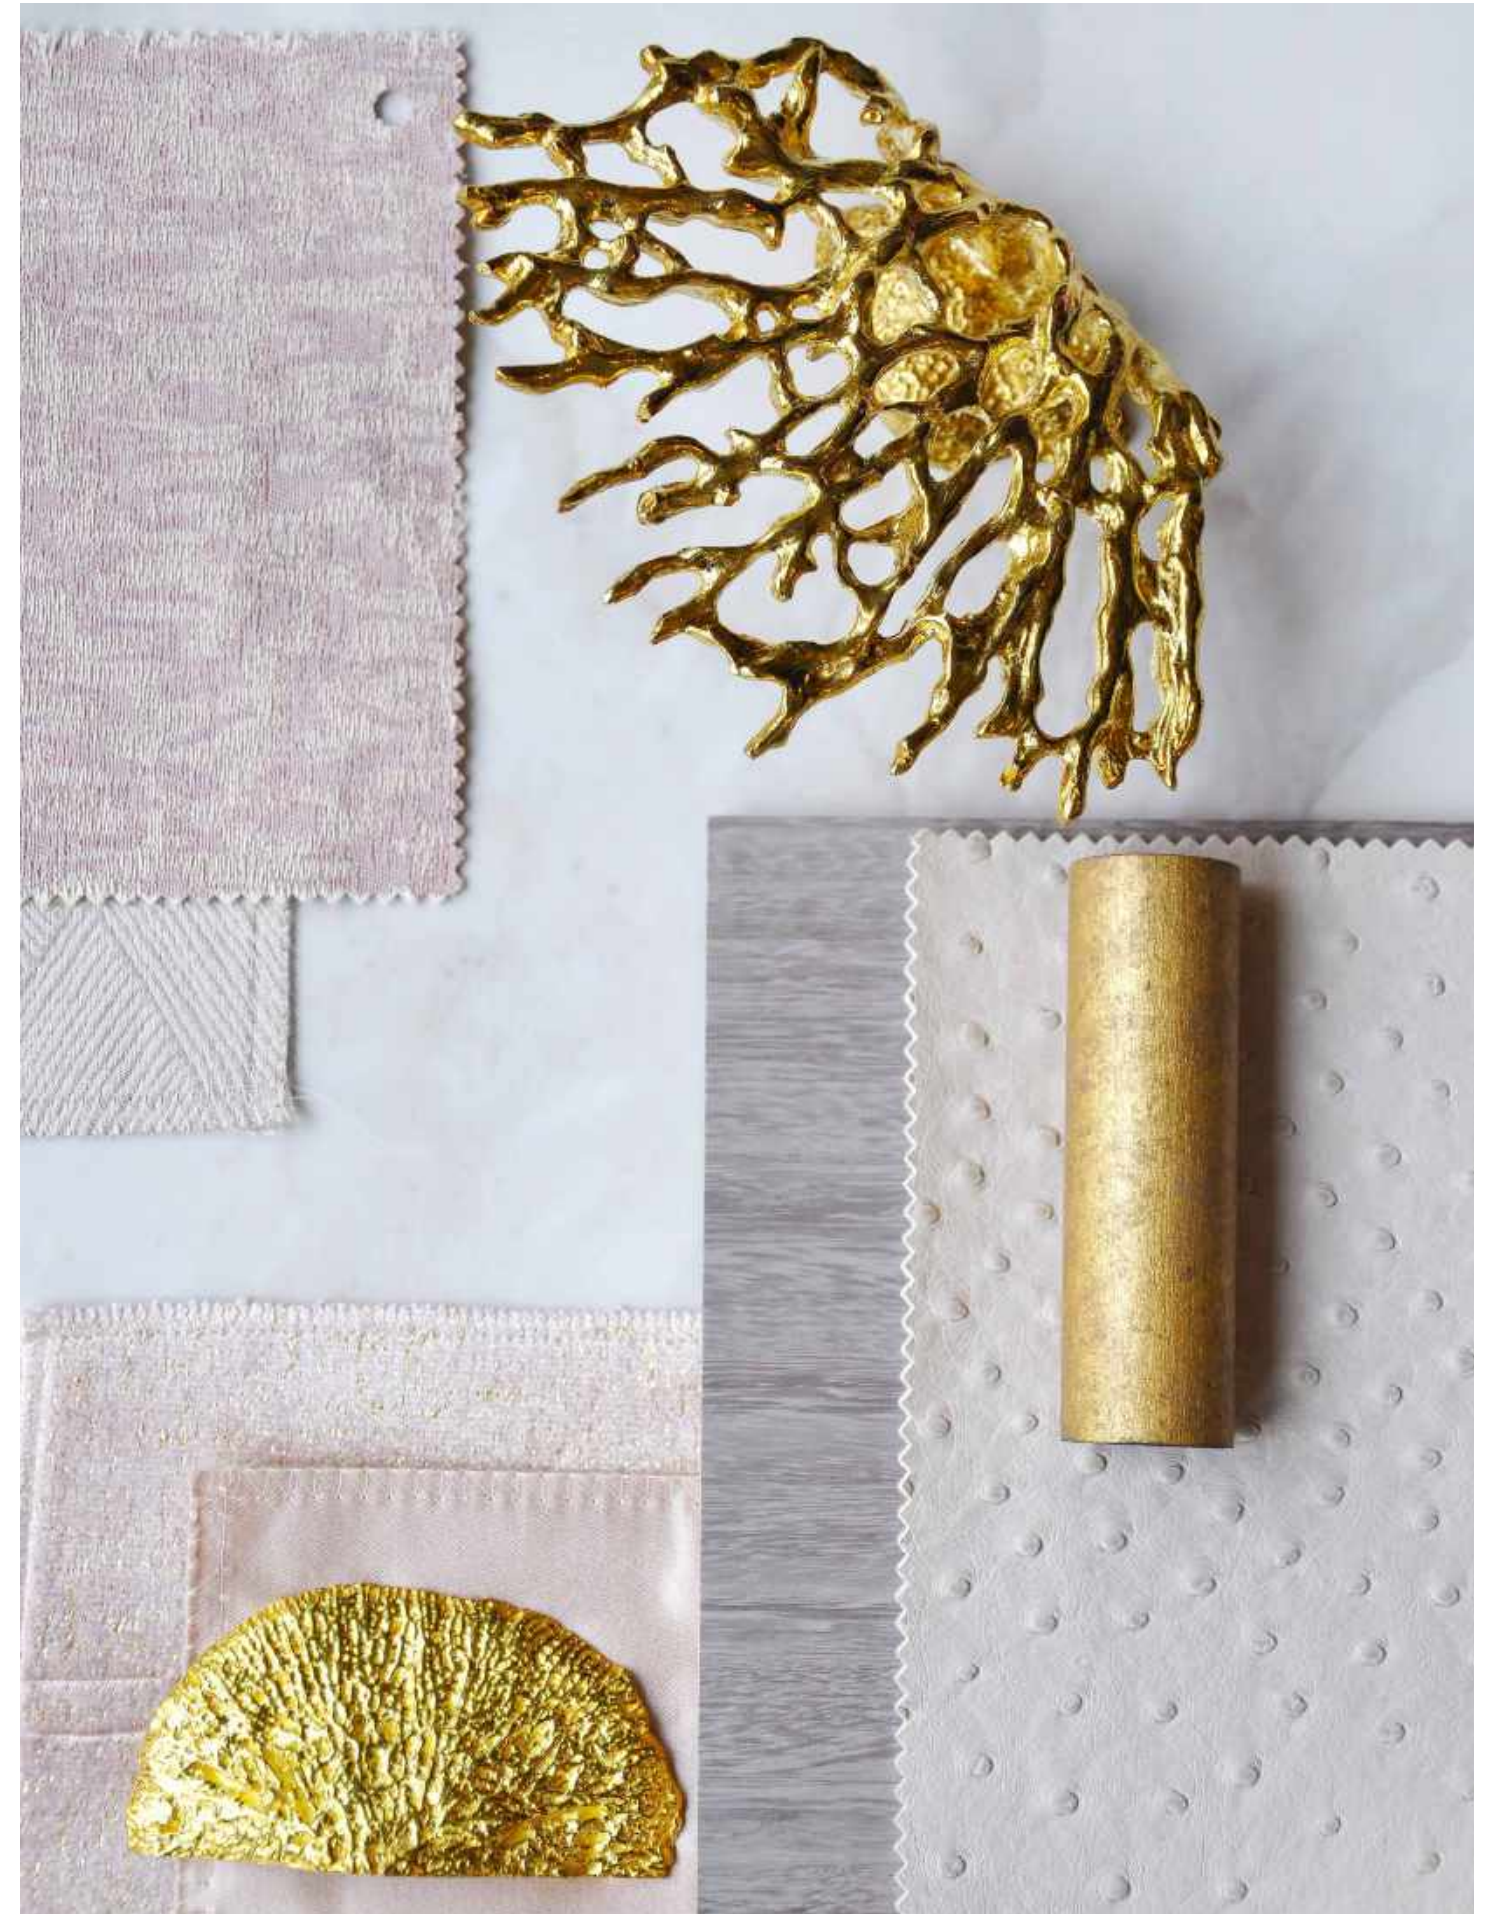

This project was carried out in a prestigious penthouse on a very exclusive island in Miami. Covering a grand total of 800 square meters, this apartment also has a 200 square meters terrace overlooking Miami Beach.

The team designed the entirety of the interior architecture elements as well as the furnishings and the decorations.

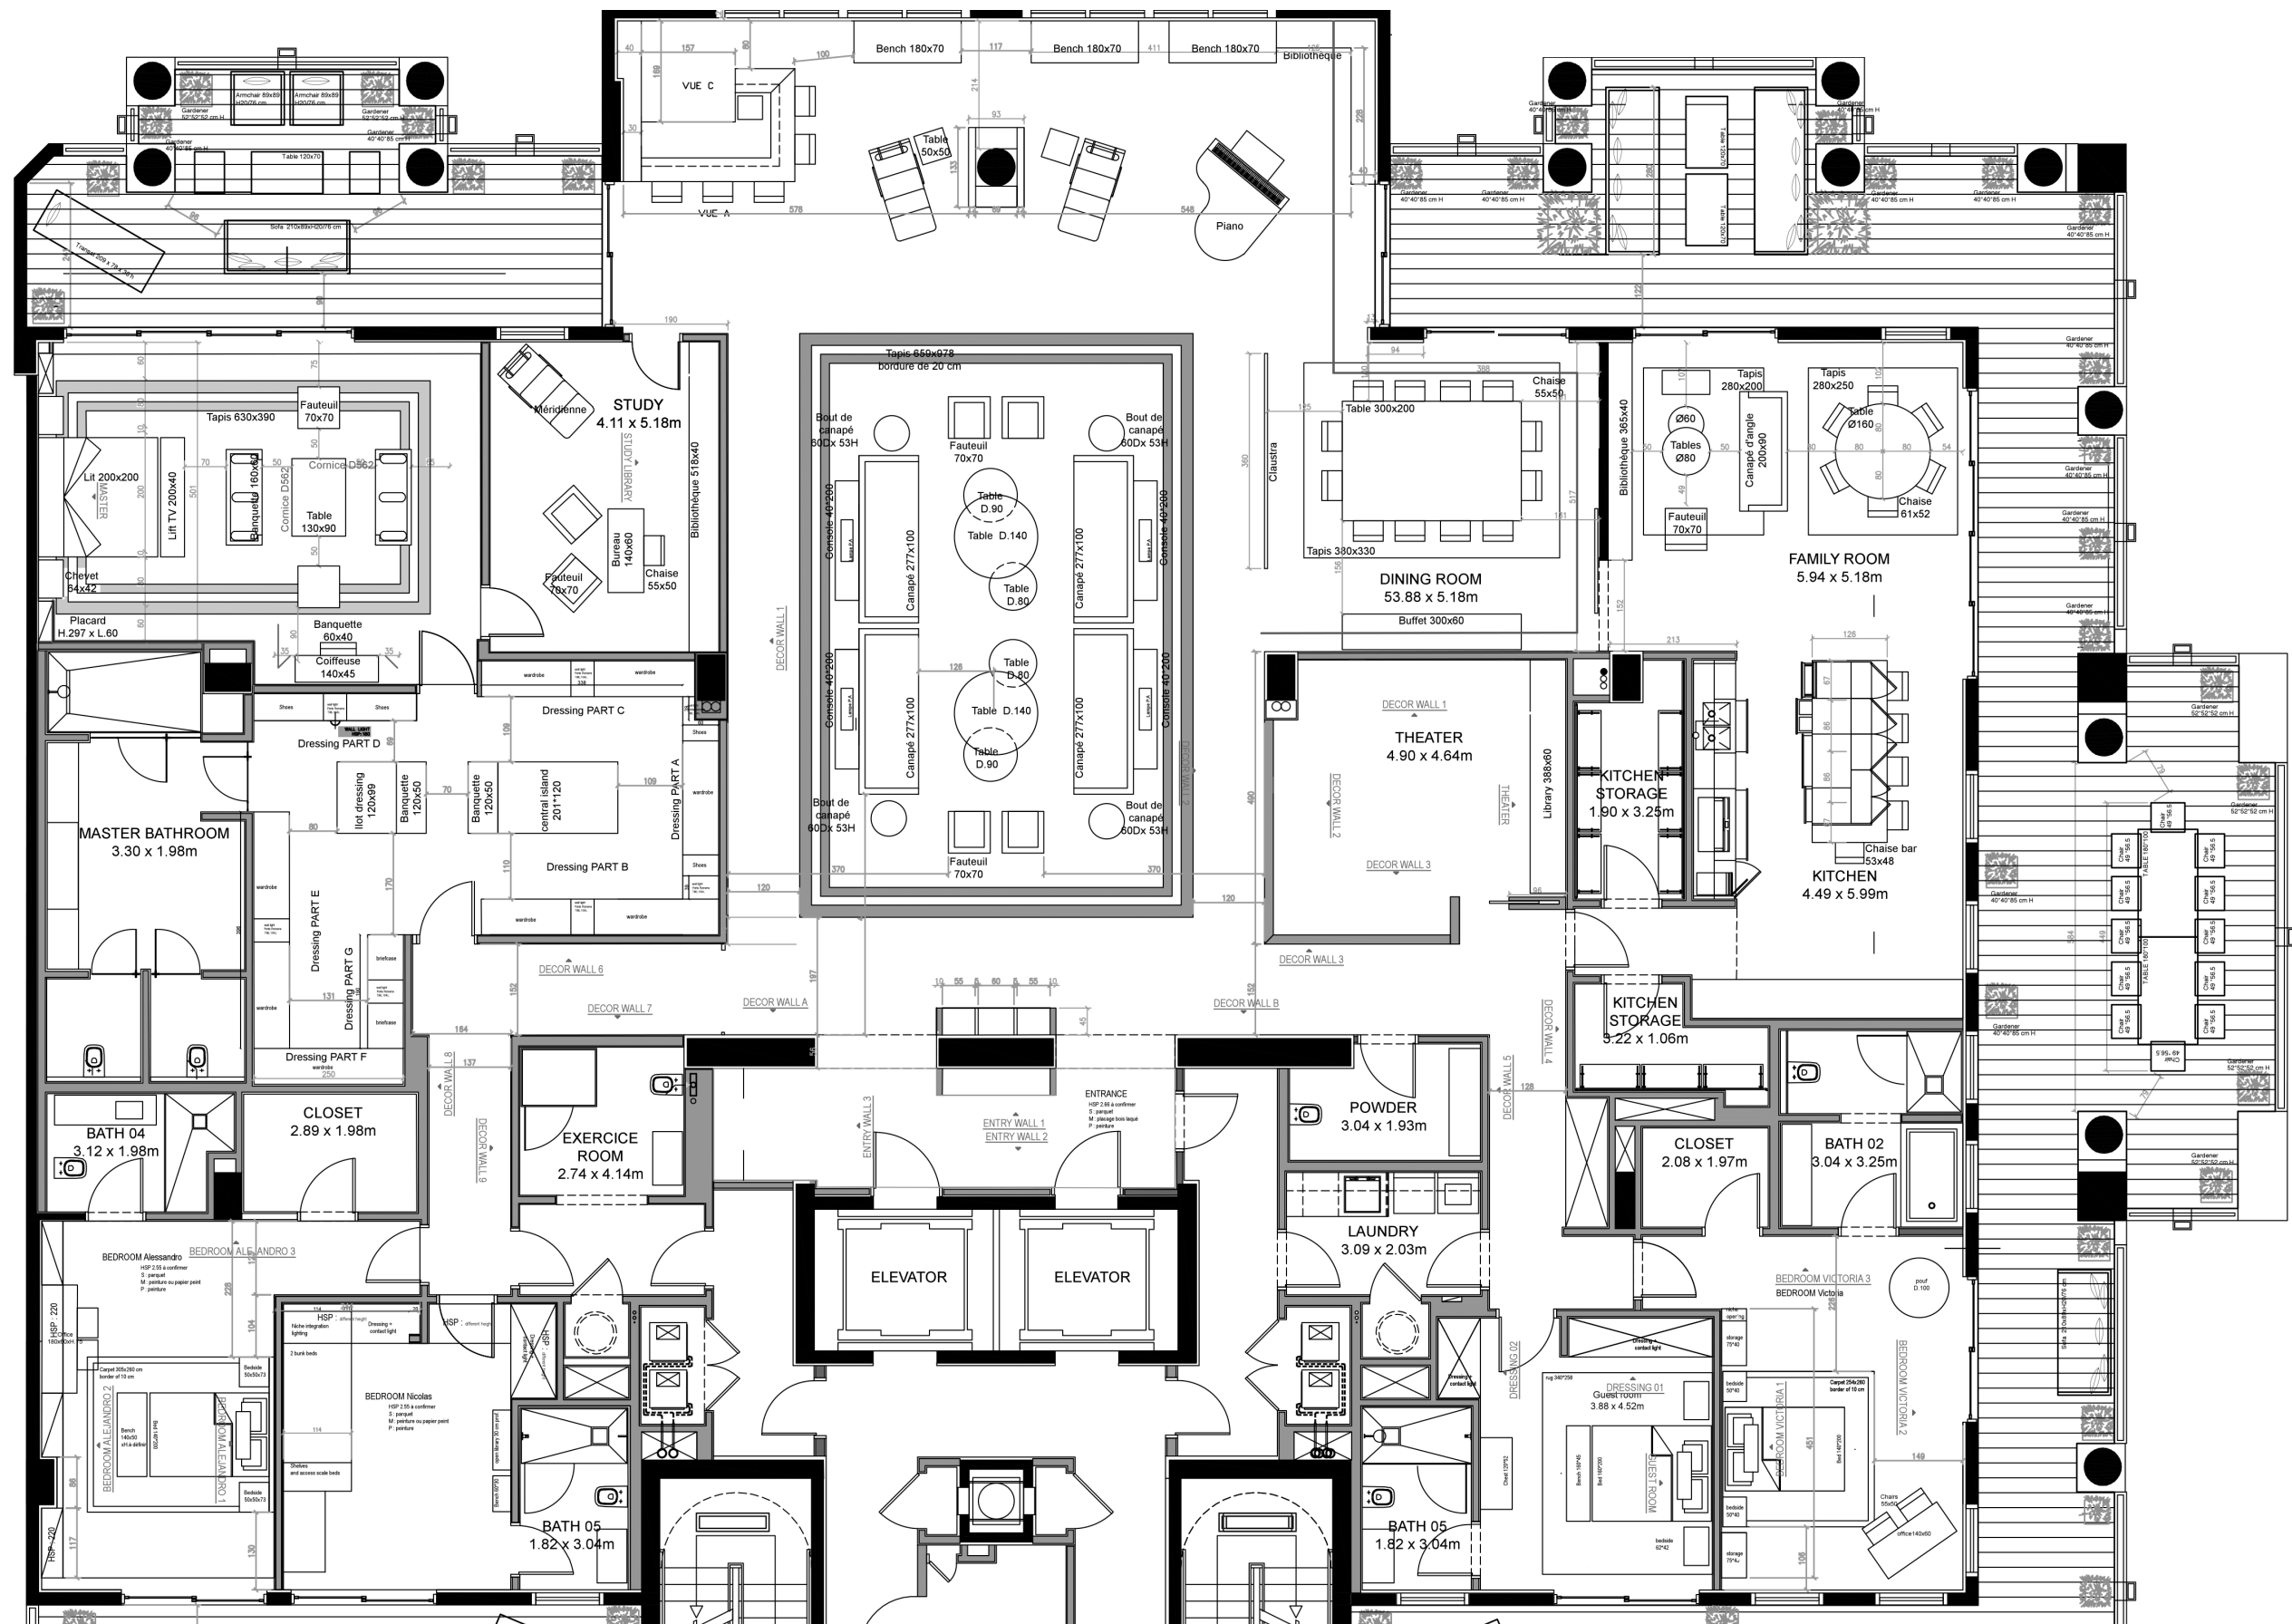

They worked on an Art Deco era inspired theme, ingeniously exploiting refined finishes with elements such as cornices and moldings, enhanced with mother-of-pearl panels and textured wallpapers.

The aim was to achieve a glamorous yet warm interior using noble and natural materials such as shagreen, brass, wood and mother-of-pearl.

The subtle balance in textures highlight the elegance of both luxurious furniture pieces and architecture.

CHALET FRENCH ALPS

Living Room

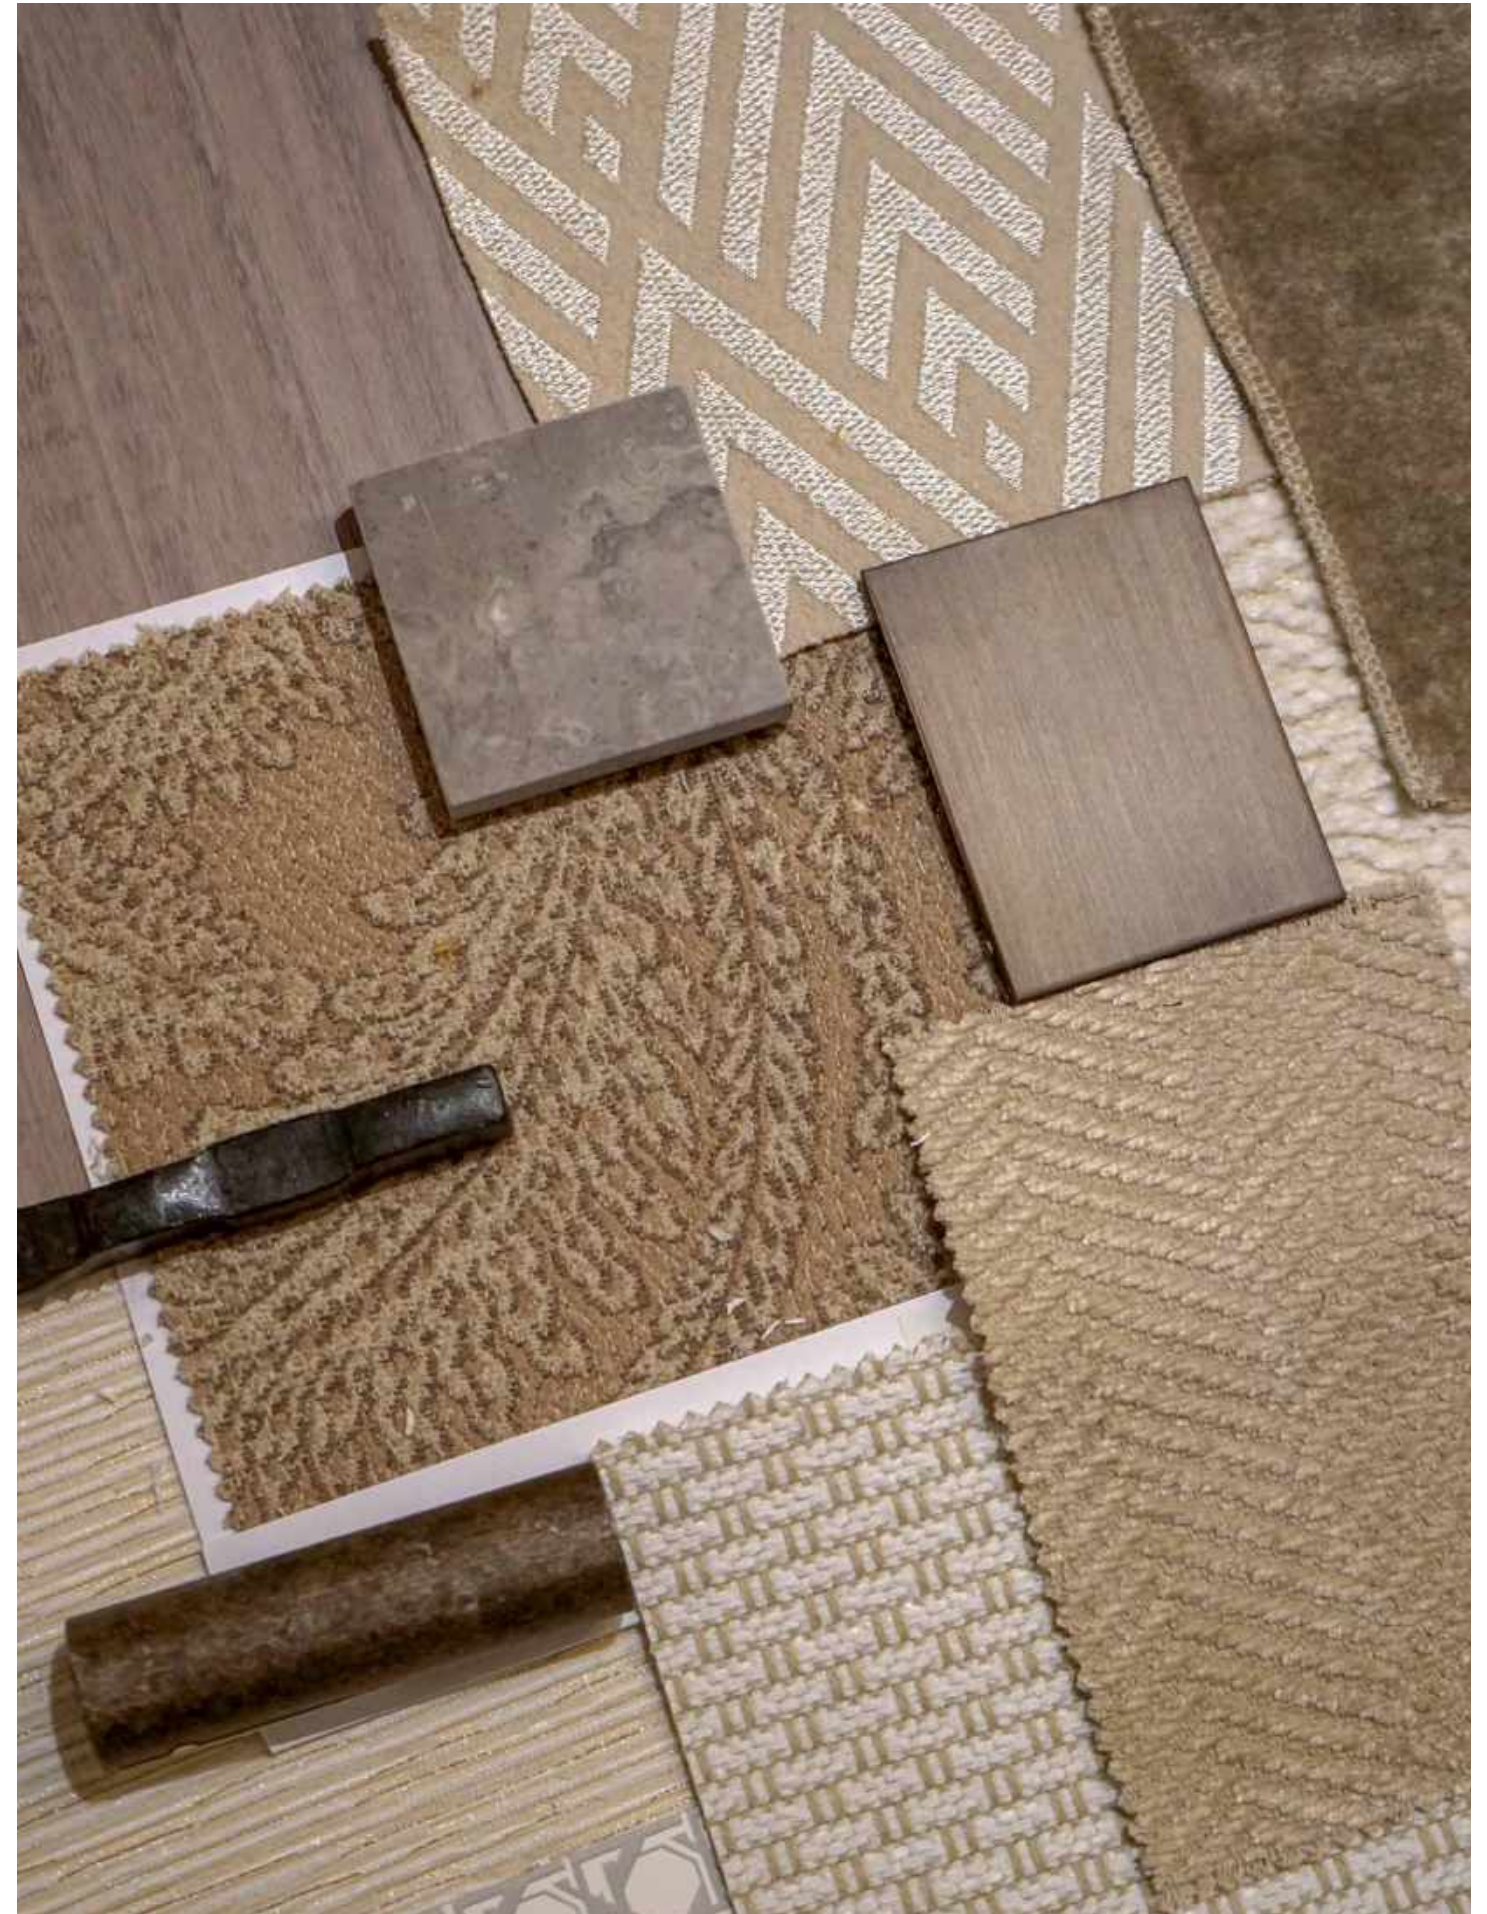

CHALET FRENCH ALPS

Located in the heart of the French Alps, this luxurious wooden chalet underwent vast restructuring and renovation work. The idea was to modernise this charming but spectacular property. The exceptional situation of this residence lends itself to luxury and conviviality.

The new design was inspired by the Art Deco era. The alliance of noble fabrics such as wool and cosy tons bathes this home in a welcoming yet modern atmosphere.

The team emphasized the chalet's impressive structure by highlighting the raw wooden beams with modern accessories such as spots and designer chandeliers.

In the basement hides a luxury spa decorated with an 8-metre-long long aquarium and a retractable pool.

HOW WE WORK

THE BRIEF

The first step of the development is to understand your wishes. Our design team studies the creative, financial and practical feasibility of the site or concept, and evaluates its potential to obtain the best result.

DESIGN DEVELOPMENT

The second step consists of maximizing the true potential of the project by creating spaces in line with the brief.

PRESENTATION

The third step allows you to visualize in a very realistic way the final result of the project with moodboards, technical drawings or 3D visuals. A selection of materials and furniture are also presented.

PROJECT MANAGEMENT

Our team oversees the entire project from conception to installation, participating in regular site meetings to ensure the project is carried out according to our plans and that the project is progressing as planned and within budget.
